FTM-100DR/DE Firmware Update Information

Refer to the Firmware Update Instruction Manual in each ZIP file.

The latest versions are listed below with the release dates.
- MAIN Firmware Version **1.20** (02/12/16)
- DSP Software Version **0410** (01/14/16)
- PANEL Firmware Version **1.30** (01/14/16)

Currently we have three different destination versions of the FTM-100DR/DE: USA, AUS and EXP (including EU and CHN). Please open the Update Instruction Manual and review the information before starting the update firmware.

You must check the version radio you have and use the correct update firmware. The destination is marked on the box serial number label. See the below label example for USA destination. If the box in not available, the country you purchased the radio in may indicate the destination. If the FCC part 15 rules statement is on the radio above the Serial/ID label, it is the USA version. Other versions will not have the FCC label.

MAIN Firmware   Ver. 1.20
DST: USA version covers North and South America FTM-100D_ver120(USA).zip
DST: AUS version covers Australia and New Zealand FTM-100D_ver120(AUS).zip
DST: EXP/EU/CHN covers all other countries FTM-100D_ver120(EXP).zip

PANEL Firmware Ver. 1.30
FTM-100D_PANEL_ver120(EXP).zip
Covers all countries except JPN

DSP Firmware   Ver. 0410
PCTOOLe_v0410.zip
Covers all countries except JPN

CAUTION:
Please be sure to confirm the model and the version of your transceiver before starting the update.
Writing incorrect firmware to the transceiver may cause abnormal operation or failure.

FTM-100DR/DE Main Ver. 1.20 and Panel Ver. 1.30 (2/12/16)

- Improved and optimized.

NOTE: When MAIN Firmware Ver. 1.20 is installed you must check the DSP and Panel Firmware version. If you do not have DSP Ver. 0410 and Panel Ver. 1.30 firmware, then it must also be installed at the same time (otherwise the radio may not function correctly). Refer to Firmware Update Instruction Manual to find how to check the Main, DSP and Panel Firmware version.

If you already have Main Ver. 1.20, DSP Ver. 0410 and Panel Ver. 1.30 Firmware versions, it is not necessary to update the FTM-100DR/DE again

We hope this new Firmware will increase your enjoyment of your FTM-100DR/DE. Thank you for choosing Yaesu radios. If you have any problems or questions please contact Yaesu Amateur Tech Support amateurtech@yaesu.com.
